EXPERIENCE

Bank of America

VP & Design Lead · Feb 2023 – Present

- Led design sprint innovation: 30% faster delivery, 15+ validated solutions for enterprise banking products.
- Built interaction frameworks across 8+ product lines; order-submission time reduced 40%, support tickets down 20%.
- Managed design team resources and innovation roadmap, ensuring 100% on-time delivery across all initiatives.

Assistant VP & UX Designer · Dec 2020 – Feb 2023

- 80% of users found the renewed design helpful; cloud hosting apps grew from 200+ to 4,000+.
- Architected scalable Figma design system with component library and tokens adopted across 12+ product teams.
- Partnered with engineering to define annual product roadmap, aligning design with business objectives.

UX Designer · Jun 2018 – Dec 2020

- NPS 5 → 36 by redesigning ordering process; user base grew 200%+ in Q1 post-relaunch.

UI/UX Intern · Jun 2017 – Aug 2017

- Delivered web + iOS/Android UX project to shareholders with user-data evidence of positive product impact.

SOLO AI PRODUCT BUILDER — 5 PRODUCTS

Dec 2025 – Present · Sole designer & developer · Figma MCP → Cursor → Claude API

Jobpilot (Mar 2026) — AI-powered job hunting coach

Next.js · TypeScript · Tailwind · Claude API · OpenClaw AI runtime

- Full product flow: AI resume revision → job matching by interview probability → form auto-fill → application tracker.
- Resume Reviser: Claude Vision extracts image-based PDFs, analyzes improvements, user approves/edits, exports revised resume.

OneCo (Mar 2026) — One-person company personality quiz & talent profiler

Next.js · TypeScript · Tailwind · OpenClaw · Multilingual EN / Chinese / ES / FR

- 10-question quiz across 5 archetypes: Visionary / Executor / Connector / Expert / Creative.
- Red Little Book content-to-product funnel; generates personalized one-person company path and job strategy.

Mission Control (Mar 2026) — Personal AI agent command center

Next.js · TypeScript · Tailwind · OpenClaw AI runtime

- Internal dashboard managing AI subagents, cron jobs, memory, docs, and live projects.
- Live animated pixel-art office visualizing real-time agent activity and work output.

katexu.com (2025–26) — Personal portfolio site

Next.js · Framer Motion · Tailwind · Figma MCP + Cursor

- Interactive space-themed portfolio with 3D card effects and animated case studies.

pawpawStory (Dec 2025) — AI voice-cloning iOS app for kids

React Native · ElevenLabs API · Claude API · Figma MCP + Cursor

- 0 → App Store in 4 weeks as sole builder.
- Multi-agent workflow: Figma variables → Cursor MCP → React Native; ElevenLabs voice cloning for personalized story narration.
