

Experience

Bank of America

VP & Design Lead
Feb. 2023 - present

- **Design methodology innovation** which applied to design sprint and conducted design solutions.
- **Prioritize** upcoming features with multiple stakeholders and identify potential opportunities.
- Initiate portal interface redesign ideas, build strategic interaction design work with cross-functional teams for different products to keep up with branding knowledge and share project experience.
- Lead two designers to deliver aligned wireframes and push project forward with engineers. The average time for submitting an order has **reduced 40%** and decreased support tickets by **20%** by optimizing complex workflows on the cloud platform.
- Manage resources and driving innovation and make sure projects are completed in a timely manner

Assistant VP & UX Designer
Dec. 2020 - Aug. 2021

- Analyzed survey data and user behavior data, designed wireframes, and collaborated with developers to improve user experience across the platform. **80%** of users found the renewed design helpful. Cloud hosting applications increased from **200+ to 4000+**.
- Aligned with the plan of the development team to make the annual release scope.
- Built **design systems** that work across the platform.

UX Designer
June. 2018 - Dec. 2020

- Designed and conducted user interviews via intranet surveys and communication. NPS increased from **5 to 36** by redesigning ordering process. User base has **increased 200%+** within the first quarter after renewed design.
- Maintained and updated user guide webpage using HTML, Javascript, CSS, Git, Jira System.

UI/UX Intern
Jun. 2017 - Aug. 2017

- Designed and conducted UX interviews to understand target users in order to address problems.
- Designed and collaborated with developers to make UI/UX changes by making storyboard and high fidelity wireframe.
- Delivered the final UX project (**web application and iOS/Android App**) report to shareholders and show the user-data to prove how it had made positive changes to the product.

pawpawStory

Solo AI Product Builder
(AI voice-cloning storytelling app for your kids.)
Dec 2025 - Present

- **Zero to App Store in 4 Weeks:** Defined the product vision, specification, and execution of a consumer-facing AI storytelling iOS application, launching it to the App Store in just 4 weeks.
- **Multi-agent AI workflow:** Orchestrated a seamless pipeline from Figma variables (design system) to React Native code using Figma to Cursor MCP and "Vibe Coding" methodologies.
- **Voice Cloning Integration:** Synthesized qualitative user insights into a highly intuitive mobile experience, utilizing complex LLMs and ElevenLabs API to create a deeply engaging, "magical" user journey.

Little Red Book

Gen AI Product Design
Social Media Creator
Jan 2026 - Present

- **Gen AI Thought Leadership:** Built account brand as a Gen AI Product Designer, sharing deep dives into AI product development workflows, "Vibe Coding" methodologies, and the evolving mindset required for AI-native building.
- **Community Growth:** Scaled a community to over 10,000 active interactions in three weeks by creating educational content that empowers designers to reclaim technical agency through AI tools.

ionboard
(Electric Skateboard)

Design & Marketing Lead
Aug. 2017 - Sept. 2018

- Designed visual, photoshop, video editing, and crafted content for the official website and Kickstarter campaign website, led customer service and guided users before & after-sell. Crowdfunding goal reached in 24 hrs for **\$57,132**.
- Led the team to compete with 50+ entrepreneur teams and took the **1st place** at the pitch, entered the accelerator program (UCSD the Basement). Funded (2017 & 2018) by this program.
- Applied and be admitted to exhibit at CES 2018. Pitched at CES 2018 to potential investors. Communicate with media resources to get interviewed by Geekery CES and SYFY NBS Channel. Made strategies and collaborated with teammates to expand buyers. **Gained 65% increased** buyers by the end of the next quarter.

Education

University of California, San Diego
Bachelor of Science (B.S.)
Cognitive Science - Design & Interaction
(August 2018)

Google Certificate
Foundations of User Experience (UX) Design
