EXECUTIVE SUMMARY

Data-driven Product Leader with 8+ years of experience driving the end-to-end product lifecycle from ideation to release across consumer mobile apps and complex enterprise platforms. Deeply rooted in Cognitive Science and UX, bringing a unique advantage in partnering with design and engineering teams to build delightful, gamified user experiences. Proven track record of defining product strategy, analyzing behavioral data to optimize KPIs, and leading cross-functional teams to deliver highly engaging, intuitive software solutions.

PROFESSIONAL EXPERIENCE

Bank of America

Oct 2018 – Present

VP, Product & Design Lead (Platform Strategy)

Product Strategy & Vision: Drive product strategy and execution for the internal cloud platform and WorkIT application, partnering with executive leadership to scale infrastructure supporting 4,000+ applications and drive unified design system adoption.

Cloud Platform Efficiency: Reduced task completion time by 40% and decreased support tickets by 20% by optimizing complex workflows on the cloud platform.

Data-Driven Optimization: Built and maintained daily automated reports for product leaders tracking key behavioral stats and feature click-rates. Utilized these quantitative insights to define KPIs and inform quarterly roadmaps during PI planning sessions.

Measurable User Growth: Directed the end-to-end iteration of the WorkIT project over 1.5 years, successfully driving an increase in the product's NPS score to 36.

PawpawStory

Dec 2025 – Present

Solo AI Product Builder (Mobile App)

AI voice-cloning storytelling app for your kids.

Zero to App Store in 4 Weeks: Defined the product vision, specification, and execution of a consumer-facing AI storytelling iOS application, launching it to the App Store in just 4 weeks.

Multi-agent AI workflow: Orchestrated a seamless pipeline from Figma variables (design system) to React Native code using Figma to Cursor MCP and "Vibe Coding" methodologies.

Voice Cloning Integration: Synthesized qualitative user insights into a highly intuitive mobile experience, utilizing complex LLMs and ElevenLabs API to create a deeply engaging, "magical" user journey.

Xiaohongshu (Little Red Book)

Jan 2026 – Present

Gen AI Product Design Social Media Creator

Gen AI Thought Leadership: Built account brand as a Gen AI Product Designer, sharing deep dives into AI product development workflows, "Vibe Coding" methodologies, and the evolving mindset required for AI-native building.

Community Growth: Scaled a community to over 10,000 active interactions in three weeks by creating educational content that empowers designers to reclaim technical agency through AI tools.

iOnboard

Aug 2017 – Sept 2018

Design and Marketing Lead

Market Validation & Launch: Drove the go-to-market strategy and visual execution for a consumer hardware product, performing extensive market research to validate product-market fit.

KPI Achievement: Crafted highly targeted campaigns and intuitive user flows that accelerated user acquisition, successfully hitting the \$57,132 funding KPI within the first 24 hours of launch.

CORE COMPETENCIES

Product Management

Product Strategy, KPI Definition, Agile/PI Planning, Feature Ideation & Specification, Cross-Functional (XFN) Leadership, Go-to-Market Strategy.

Research & Analytics

Quantitative Analysis, Qualitative User Research, Experiment Analysis, A/B Testing, Behavioral Data Tracking.

UX & Technical

Cognitive Science, Rapid Prototyping, Mobile App Development (iOS), AI/LLM Workflows, React Native.

EDUCATION

University of California, San Diego

B.S. Cognitive Science (Design & Interaction)
